017 - "TURTLE ISLAND"

The Creator took a turtle and covered its back with mud. The mud grew larger and larger and became a large island. The Creator then made first man and woman and led them around the edge of the island. Upon arriving at the starting place, the Creator planted corn and told man and woman to continue circling the island. Upon returning they found the corn growing nicely, and with each round the island grew bigger and the corn grew ripe and ready to eat. Finally, the island became the Earth and in this way the Creator gave the people their Earth home and their staple food, corn.
