

"IRON HORSES"

Since the arrival of Columbus and the Europeans, the lifestyles, the cultures, the very existence, of Indians have been under siege.

Today Indians retain much of their traditional culture and many of their beliefs, but on and off the reservations, Indians live much as Americans do everywhere; they are represented in all professions and trades. Women are a force in government and education as well as in maintaining the cultural and spiritual life of the community and the home. Indian men and women have distinguished themselves in the arts and sciences, in the classroom and the courtroom. The men have long excelled on the athletic field and the battlefield.
