

A French Agent and his guide wait for the dark of the moon to meet with other woodland Indians and to carry out raids into the English settlements during the *French and Indian War*, 1754 - 1763.

The conflict is known by several names. In **British America**, wars were often named after the sitting British monarch, such as **King William's War** or **Queen Anne's War**. Because there had already been a **King George's War** in the 1740s, British colonists named the second war in **King George's** reign after their opponents, and thus it became known as the *French and Indian War*. This traditional name remains standard in the United States, although it obscures the fact that **American Indians** fought on both sides of the conflict.
